

CILC

Center for Interactive
Learning and Collaboration

Federal Stimulus Dollars

Supporting Academic Achievement

The following services from CILC support academic achievement under the American Recovery and Reinvestment Act.

Middle and Elementary Curriculum Packages

Curriculum packages:

- engage students in quality programs related to your school improvement initiatives: STEM, problem solving, critical thinking skills, literacy and more
- meet curricular needs in Science, Math, Social Studies or Language Arts.
- bring subject matter experts into the classroom.

Two curriculum package options are available: Pre-selected or Customized.

Consulting Services

CILC consultants offer individual workshops and consulting packages to help educators learn about best practice implementation models and maximize your investment in technology. All offering can be customized to meet your specific needs.

Professional Development

CILC consultants work in partnership with you to create customized solutions, using collaborative technologies, which support your professional development initiatives. Solutions focus on:

- the implementation and integration of collaborative technologies.
- Problem Based Learning.
- effective and efficient delivery of your own professional development.
