

Comprehensive STEM Packages Enhance Education Outcomes

Planning, Training and Coaching Yield Success

CILC is dedicated to enhancing educational outcomes by providing a comprehensive STEM package along with the necessary planning, training, coaching and support needed for teachers and ultimately students to succeed.

These videoconferencing packages provides content immersion, exposure to experts, classroom interaction and delivery, as well as the confidence for teachers and student to immerse themselves in scientific inquiry through live interaction with experts, habitats, artifacts and experimentation.

In addition the package allows students and educators to work with lead science education providers at both a national and international level – including NASA, zoos, aquariums, museums , and research centers – to enrich physical, chemical, marine, animal, earth and other science disciplines.

STEM Package One	STEM Package Two	STEM Package Three
10-15 Content Programs 1-2 PD Programs 2 Workshops 1 Coaching Session 1 Curriculum Planning Meeting 1 CILC Premium Service Account Price: \$6,000	20-24 Content Programs 2-4 PD Programs 4 Workshops 4 Coaching Session 1 Curriculum Planning Meeting 4 CILC Premium Service Accounts Price: \$10,200	30 Content Programs 2-4 PD Programs 4 Workshops 4 Coaching Session 1 Curriculum Planning Meeting 8 CILC Premium Service Accounts Price: \$13,560
